- 4. Login using your standard network login credentials as you would when you log in to your workstation at the office. Your desktop will appear in the Window and all elements will function as expected.
- 5. MobileOffice supports full screen mode to give you larger workspace. Multiple monitors are also supported. The top menu bar offers some additional tools and keyboard inputs and clipboard copy/paste.

6. When you're done working, just click on the X on the top menu bar. That screen will close and you will return to the main dashboard screen. From there you can access other tools or simply close your browser.

If you experience difficulty connecting to your PC, please make sure that you have Java Software installed. A free download is available from <u>www.java.com/getjava</u>.
